

ADDICTION STUDIES

2023-2024 Catalog Year

The BS in Addiction Studies prepares students to work directly with individuals with substance use disorders and process addictions (e.g., gambling, disordered eating, etc.) in order to facilitate long-term recovery, autonomy, and improved quality of life. The program's curriculum meets the criteria for the credential as a Licensed Chemical Dependency Counselor in the State of Texas and serves as a robust foundation for graduate study. This program also supports students and professionals who wish to continue career development in the addictions field and addresses numerous aspects of the treatment process, including, prevention, intervention, residential treatment, and outpatient substance use treatment with adults and adolescents. The program provides rigorous courses taught by clinically trained, licensed and experienced faculty who have a rich history delivering academic instruction in higher education. The program offers an integrated model of addictions, mental health, and co-occurring disorders. The UNT Addiction Studies major provides exposure to addiction diagnoses, all levels of care, and competencies for working with adults and adolescents.

The Bachelor of Science degree in Addiction Studies from the University of North Texas consists of 120 college credit hours of which 42 need to be advanced. The degree requires 42 hours of general academics, 36 hours in the major, and 42 hours of general electives.
